National Fire Sprinkler Association, Inc.

Inspection and Testing for the
Sprinkler Industry Seminar

40 Jon Barrett Road

Patterson, NY 12563

NICET EXAM INFORMATION

A NICET Exam will be held on May 28, 2010
at the:

Fairfield Inn and Suites Augusta
14 Anthony Avenue
Augusta, ME 04330
(207) 623-2200

NICET EXAMINATION FEES ARE \$205.00
(This is in addition to class fee)

Applications must be received no later
than April 13th—Test Code: ME102

NICET has gone the extra mile and approved select NFSA staff members that are not deliverers of the curriculum to set up Special test sites. However, they wish to minimize administrative burdens and have asked that we gather all the NICET applications, and send them in alphabetical order in one package with one lump sum check. So please make one check covering both class and exam fee to NFSA and send to with NICET application to National Fire Sprinkler Association, Attn: Inspection and Testing for the Sprinkler Industry Seminar, 40 Jon Barrett Road, Patterson, NY 12563. Applications must be received no later than April 13th and must reference Test Code: ME102. To download the NICET Exam Application please visit:

The Voice of the Fire Sprinkler Industry

Over 1,800
people have
taken this
class!

Inspection and Testing for the Sprinkler Industry

*Learn skills required to be a
productive inspector and enforcer of
NFPA 25.*

*This class covers all of the various
requirements of the NFPA Standards
and offers a chance to learn the
Sprinkler Industry's Best Practices*

NFSA's most popular offering is coming to:

Augusta, ME **May 25-27, 2010**

Office of the State Fire Marshal
Florian Hall
45 Commerce Drive
Augusta, ME 04333

Check the NFSA website for additional
dates available around the country.

Target Audience:

This special three-day seminar has been developed for technicians that inspect water based fire protection systems and that have at least six months of experience.

Purpose:

The purpose of the seminar is to assist individuals in advancing their careers by reviewing material necessary to show comprehension of Inspection and Testing in the Fire Sprinkler Industry. This class will ensure advancement in the industry through expanded knowledge of many different topics.

It is assumed that the student has a working knowledge of the components of basic wet pipe and dry-pipe sprinkler systems, and a working knowledge of NFPA 25, NFPA 13, NFPA 13D and NFPA 13R.

Cost:

3 Day Course

\$450.00 for NFSA Members

\$650.00 for Non-Members

\$50 discount on all registrations made at least two weeks in advance.

Additional discount available for three or more people from the same company

NICET Exam

\$205 Application Fee

Each paid attendee will receive a certificate upon completion.

Materials:

Each attendee will receive an NFSA workbook and a calculator capable of performing industry specific math.
